Meet the filmmaker!

Chris will be on hand to discuss his work advancing relocalization of agriculture and economics.

You can purchase advance copies of his latest project, ***Coming Home,
E.F. Schumacher and the Reinvention of the Local Economy.***

Chris Bedford is co-founder and President of the Sweetwater Local Foods Market – Michigan's first farmers market to exclusively sell locally grown fruits and vegetables raised in a manner that enhances biological diversity and builds soil health AND meats, eggs, and cheese from animals raised humanely without antibiotics or hormones. His film, "What Will We Eat?" tells the story of a citizen's movement to build a healthy, local food supply for Michigan.
